

Project Description and Reference List Guidelines:

This 2-page document should consist of three main sections:

- Background & Conceptual Framework
- Objectives, Questions, and Predictions
- References List

The document should be single-spaced in Arial 10-point font. The first two sections should be ~1.5 pages, and the References List another ~0.5 page. We don't care what citation style you use for the references, but please make sure it is consistent throughout the document.
