

Project Experimental Plan and Methods Guidelines:

This 2-page document should consist of two main sections:

- Experimental Plan (with accompanying schematic figures or tables)
- Methods
 - Sample Collection
 - Stable Isotope Analysis
 - Statistical Analyses

The document should be single-spaced in Arial 10-point font. Each major section should be ~1 page. Please include citations where applicable and use the same citation style as you did for the Project Description and References List assignment.
